## ACKNOWLEDGMENTS

I would like to acknowledge many people who supported me to finish this thesis. My special thanks are due to Dr. Thomas Tehan who spent a great amount of time reading this thesis carefully and always encouraged me to keep working. I am also grateful to Ajarn Ken Manson who also spent time reading this thesis again and again and gave me the valuable comments about the grammatical analysis in this thesis, and Ajarn Douglas Inglis who provided me with the materials. This thesis owes much to the their thoughtful and invaluable advice.

I also give my thanks to my informants Zang Thang Latung and Taink Wang Latung. They carefully considered my questions and stood answering many questions. They were always willing to be interviewed although they were busy.

I wish to express my gratitude to my friends who sent their encouragement from Japan. Their kind and cheerful words supported me all the time. Similarly, I am greatly thankful to Capt. Jullapot Yamumpol and his family who made me comfortable to stay in Thailand. I could not keep working without their support and kindness during spending the time in the foreign country.

Finally, I would like to give my special thanks to my parents and sisters who are always concerned about me and sometime visited me from Japan. Their kindhearted words kept me working to complete my thesis.
