ACKNOWLEDGEMENTS

I would like to express my gratitude to all the teachers who have taught me. Sincere gratitude is given to my advisor, Dr. Jonathan Leather, for his academic guidance, valuable advice, and patience on editing and polishing this paper. Great thanks also goes to my committee members, Dr. Jenjit Gasigijtamrong and Dr. Graeme Ritchie, for their insightful suggestions and encouragement in improving this work.

I would like to give my appreciation to all my friends who always encourage and help me throughout this study. Their support, love, endurance, and sense of humor in the midst of everything are appreciated beyond all words. Special thanks also goes to Wen Jie, who kindly introduced me to Payap University, which provided the opportunity for this course of studies.

And last but not least, I would like to give my greatest thanks and utmost respect to my parents. Without their love, understanding and financial support, I would not have accomplished this program and be what I am today.
