

## TABLE OF CONTENTS

Acknowledgments .....	vi
Abstract.....	vii
List of Figures.....	xv
List of Tables.....	xix
List of Abbreviations and Symbols.....	xxi
Chapter 1 .....	1
Introduction .....	1
1.0 Introduction .....	1
1.1 Tai language classification .....	3
1.2 The subdivision of Southwestern Tai (SWT).....	6
1.3 Subgrouping of SWT dialects in Yunnan.....	8
1.4 Rationale.....	10
1.5 Research questions .....	10
1.6 The scope and limitations of the study.....	10
1.7 Benefits of the Study .....	11
Chapter 2 .....	12
Literature review.....	12
2.0 Introduction .....	12
2.1 Proto-Tai (PT) Tone Boxes .....	12
2.2 Tai Nua Linguistic Description .....	16
2.2.1 The Tai Nua Tone System .....	17
2.2.2 Tai Nua Consonants .....	17
2.2.3 Tai Nua vowels.....	18
2.2.4 Comparative Tai Nua.....	18
2.2.4.1 Proto-Tai initial consonants .....	19
2.2.4.2 Comparative Consonants.....	21
2.2.4.3 Proto-Tai Monophthongs.....	24
2.2.4.4 Comparative vowels .....	25
2.2.4.5 Comparative tones.....	27

Lexicostatistic Analysis.....	68
5.0 Introduction .....	68
5.1 Cognate Decision.....	68
5.2 Wordlists Comparison .....	71
5.3 Lexicostatistics Similarity and the analysis of results.....	77
5.4 Tree Diagram.....	79
5.5 Chaining and Dominance patterns.....	83
5.5.1 The chaining pattern .....	84
5.5.2 The dominance pattern .....	85
Chapter 6 .....	88
Sociolinguistic Study.....	88
6.0 Introduction .....	88
6.1 Language Identity .....	88
6.2 Language Choice .....	91
6.3 Reported comprehension of Tai Nua speech varieties .....	96
6.3.1 Dialects reported to be comprehensible .....	96
6.3.1.1 Dehong prefecture .....	96
6.3.1.2 Lincang prefecture.....	98
6.3.1.3 Baoshan prefecture .....	101
6.3.1.4 Simao prefecture.....	102
6.3.1.5 Sipsongbanna prefecture .....	103
6.3.2 Social Network Analysis .....	103
6.3.3 Dialects reported to not be comprehensible .....	108
6.3.4 Dialects reported to be prestigious .....	109
6.4 Language Attitudes.....	111
6.5 Tai Nua orthography.....	114
6.6 Bilingualism .....	120
Chapter 7 .....	129
Conclusions and Recommendations.....	129
7.0 Introduction .....	129
7.1 Lexicostatistic results .....	129

2.3 A brief account of the Dehong Dai language .....	29
2.3.1 Some phonetic features of Dehong.....	29
2.3.2 Lexicon .....	30
2.3.3 Grammatical Notes .....	31
2.4 Language use among Tai Nua .....	32
Chapter 3 .....	35
Theoretical Framework.....	35
3.0 Introduction .....	35
3.1 Lexicostatistics .....	35
3.1.1 Lexicostatistic methodology.....	36
3.1.2 The wordlist.....	38
3.1.3 Patterns in lexicostatistics.....	38
3.1.4 Correlations between lexical similarity and intelligibility .....	46
3.2 Sociolinguistics.....	47
3.2.1 Language Choice .....	47
3.2.2 Language Vitality .....	49
3.2.3 Language attitudes.....	50
3.2.4 Social Network analysis concepts .....	51
3.2.5 Bilingualism .....	53
Chapter 4 .....	56
Methodology.....	56
4.0 Introduction .....	56
4.1 Purpose and goals.....	56
4.2 Wordlist Collection and Procedures .....	57
4.2.1 Data sources.....	59
4.3 Sociolinguistic Questionnaires .....	59
4.3.1 Questionnaire content.....	60
4.3.2 Questionnaire administration procedure.....	61
4.3.3 Limitation of the questionnaires .....	63
4.3.4 Data sources.....	64
Chapter 5 .....	68

7.2 Sociolinguistic results.....	130
7.3 Conclusion.....	132
7.4 Evaluation of methodology .....	132
7.5 Application of the research results .....	133
7.6 Recommendations for further studies.....	134
Appendix 1 .....	135
Appendix 2 .....	141
Appendix 3 .....	147
Bibliography .....	160

PAYAP UNIVERSITY

## LIST OF FIGURES

Figure 1: Location of Yunnan Province in China (Gordon 2005).....	2
Figure 2: Tai Language family from Lebar et al. (1964).....	3
Figure 3: Genetic Affiliations of Tai-Kadai (L-Thongkum 2001:203).....	4
Figure 4: The Kadai branch (Edmondson and Solnit 1997).....	5
Figure 5: Proto-Tai Division (Li 1977:958).....	6
Figure 6: SWT subdivision (L-Thongkum 2001, Edmondson and Solnit 1997, and Li 1960) .....	7
Figure 7: Tai Language Family (Smalley 1994:298) .....	8
Figure 8: Goetz (1994) subgrouping of SWT dialects .....	9
Figure 9: Tone distributions of Shan .....	14
Figure 10: Tone distributions of Tai Yuan .....	15
Figure 11: Tone distributions of Central Thai .....	15
Figure 12: Classification of SWT dialects adapted from Chamberlain (1975).....	16
Figure 13: Tone distributions for Tai Nua (Gedney 1976).....	17
Figure 14: Tai Nua initial consonants (Yu Tsui Nung and Lo 1979).....	18
Figure 15: Tai Nua Vowels (Gedney 1976:66) .....	18
Figure 16: Proto-Tai vowels (Li 1977).....	24
Figure 17: Comparative tones (Robinson 1994).....	28
Figure 18: Temporal-aspectual markers .....	31
Figure 19: Modal Marking .....	32
Figure 20: Format for wordlist comparison (Sanders 1980:31).....	36
Figure 21: The criteria for lexical comparison (Mann 2001).....	37

Figure 22: Word Length and Linguistic Similarity (Blair 1990:32) .....	37
Figure 23: Cognate Percentages (Simons 1980:108) .....	39
Figure 24: Tree diagrams (Simons 1980:108).....	39
Figure 25: Divergence and time depth tree diagram (Simons 1980:110).....	40
Figure 26: Matrixes of time depth as cognate percent (Simons 1980:110).....	40
Figure 27: Divergence tree diagrams (Simons 1980:112).....	41
Figure 28: Convergence patterns (Simons 1980:114).....	42
Figure 29: Convergence tree diagram (Simons 1980:114).....	42
Figure 30: Geography of the chaining pattern (Simons 1980:116).....	43
Figure 31: The chaining pattern (Simons 1980:116).....	44
Figure 32: Geography of the dominance pattern (Simons 1980:117).....	44
Figure 33: The dominance pattern (Simons 1980:117).....	45
Figure 34: Sporadic convergence in a divergence pattern (Simons 1980:118).....	46
Figure 35: Factors influencing language choice in Paraguay (adapted from Edwards 1995:73).....	48
Figure 36: A continuum from positive to negative (Blair 1990:109).....	50
Figure 37: A low-density network and high-density network.....	52
Figure 38: A star network.....	53
Figure 39: Sites selected of Tai Nua speech varieties in Yunnan, China.....	58
Figure 40: A Matrix of lexical similarity percentages.....	78
Figure 41: Unrooted tree for Tai Nua, Tai Mau and Tai Lai varieties .....	80
Figure 42: Rooted tree for Tai Nua, Tai Mau and Tai Lai varieties.....	83
Figure 43: Map showing Tai Nua distributions in 4 locations .....	84
Figure 44: Cognate percentages .....	85

Figure 45: Map showing the location of Gengma, Meng Ting, Lincang, Shuangjiang and Canyuan. ....	86
Figure 46: Cognate percentages .....	86
Figure 47: Language choice .....	92
Figure 48: Language use in Family domain .....	93
Figure 49: Language use among classmate and teacher.....	94
Figure 50: Language use in different domains .....	94
Figure 51: Domains that Chinese and Tai Nua are used .....	95
Figure 52: Map of Dehong Prefecture.....	97
Figure 53: Map of Lincang Prefecture .....	99
Figure 54: Map of Baoshan Prefecture.....	101
Figure 55: Map of Simao Prefecture .....	102
Figure 56: Map of Sipsongbanna Prefecture.....	103
Figure 57: Social network .....	105
Figure 58: Two cores.....	106
Figure 59: Star network .....	107
Figure 60: Triad.....	108
Figure 61: Two pages of a book written in Long Tai script.....	116
Figure 62: A religious story written in Old Round script.....	118
Figure 63: Tai Nua newspaper and primer written in Long Tai Nua script .....	120
Figure 64: Self-reported bilingual proficiency .....	122
Figure 65: Bilingual ability according to gender.....	123
Figure 66: Bilingual ability according to level of education.....	124
Figure 67: Bilingual ability according to age .....	125

Figure 68: Bilingual ability according to level of education..... 127

## LIST OF TABLES

Table 1: PT Tone Boxes (Gedney 1972).....	13
Table 2: PT initial consonants (Robinson 1994:18).....	20
Table 3: Comparative consonants (adapted from Li 1977:56-59 and Robinson 1994:19).....	23
Table 4: Comparative Monophthongs (adapted from Li 1977:297-300 and Robinson 1998:22-26).....	25
Table 5: Comparative Diphthongs and Triphthongs (adapted from Li 1977:297- 300 and Robinson 1998:22-26).....	26
Table 6: Consonant alternation.....	29
Table 7: Vowel alternation.....	30
Table 8: Pronouns in Dehong Tai: (Youngxian n.d.).....	31
Table 9: A chart of the sample (adapted from Blair 1990:38).....	62
Table 10: The gender of the sample.....	64
Table 11: The Sample.....	65
Table 12: Occupations.....	66
Table 13: The selected locations.....	67
Table 14: Examples of full syllable forms.....	69
Table 15: Root syllable forms.....	70
Table 16: The data for the word 'belly, tummy' in each location.....	72
Table 17: The word 'belly, tummy' in Mangshi is compared with other sites.....	74
Table 18: Word length.....	75
Table 19: The results of the lexical comparison of the word "belly, tummy".....	76
Table 20: A summary of language identity.....	89

Table 21: A summary of language choice .....	91
Table 22: Positive responses to the question of who speaks the same. ....	104
Table 23: Attitudes about Tai Nua speech varieties .....	109
Table 24: Dialects reported to be more important than other dialects.....	110
Table 25: The report on the first language that children learn .....	111
Table 26: Report on language choice among children .....	112
Table 27: Report on language shift .....	113
Table 28: Report on Tai Nua people’s knowledge of Tai Nua orthography .....	115
Table 29: Report on attitudes toward Tai scripts.....	117
Table 30: Attitudes towards written language.....	119
Table 31: A Summary of the self reported bilingual proficiency.....	121
