

## TABLE OF CONTENTS

ACKNOWLEDGEMENTS .....	ii
ENGLISH ABSTRACT .....	iii
THAI ABSTRACT .....	iv
LIST OF TABLES.....	viii
LIST OF FIGURES.....	xvi
CHAPTER 1 .....	1
INTRODUCTION .....	1
Overview of Key Terms.....	3
Aims .....	4
Research Questions .....	5
Significance of Study .....	6
CHAPTER 2 .....	7
LITERATURE REVIEW .....	7
The Role of Beliefs about Language Learning on Language Learning Success.....	7
Actual Versus Portrayed Beliefs .....	8
Categorizing and Quantifying Beliefs about Language Learning.....	9
Criticisms of the BALLI and Research into its Validity.....	11
The Open Question of Whether Beliefs are Context-Specific .....	12
CHAPTER 3 .....	14
RESEARCH METHODS .....	14
The Context.....	14
The Subjects.....	15
The Data Collection Instrument .....	16
Procedure .....	17
CHAPTER 4 .....	21
RESULTS .....	21
Instructor Beliefs.....	21
Instructors' Portrayed Beliefs .....	22
Student Beliefs .....	24
Coincidence between Student and Instructor Beliefs.....	24
Comparison of Results for Instructors' Actual Beliefs and Portrayed Beliefs .....	26

Student Coincidence with Instructors' Actual and Portrayed Belief by Category .....	27
CHAPTER 5 .....	38
CONCLUSIONS.....	38
Answers to the Research Questions .....	38
What can be Inferred from these Results? .....	42
Other Findings.....	45
Critique of the Research Methodology .....	48
Pedagogical Implications of this Research.....	51
Ideas for Further Research .....	52
References:.....	55
APPENDIX A: THE BALLI, ESL TEACHER VERSION.....	58
APPENDIX B: TEACHERS' BELIEFS .....	61
APPENDIX C: TEACHERS' PORTRAYED BELEIFS .....	63
APPENDIX D.....	67
RESEARCH INTO THE CONTEXT-SPECIFICITY OF LEARNER BELIEFS.....	68
Aim.....	68
Research Question.....	68
Subjects .....	69
Data Analysis .....	69
Results.....	71
Conclusions.....	73
APPENDIX E: EXPLANATIONS OF FIGURES, TABLES, AND CALCULATIONS .....	76
APPENDIX F.....	81
DETAILED ANALYSIS OF THE COINCIDENCE BETWEEN TEACHER AND STUDENT BELIEFS FOR CATEGORIES OF BALLI ITEMS .....	82
Category 1: Foreign Language Aptitude.....	82
Category 2: Difficulty of Language Learning.....	85
Category 3: The Nature of Language Learning .....	88
Category 4: Learning and Communication Strategies .....	91
Combined Responses to All BALLI Items .....	94
Items Not Designated by Teachers as Important to Language Learning .....	97
Items Designated by Teachers as Important to Language Learning .....	100
Items Designated Important Compared with Items Not Designated Important.....	103
APPENDIX G.....	105

DETAILED ANALYSIS OF THE COINCIDENCE BETWEEN INSTRUCTORS' PORTRAYED BELIEFS AND STUDENT BELIEFS FOR BALLI CATEGORIES .....	106
Category 1: Foreign Language Aptitude .....	106
Category 2: Difficulty in Language Learning .....	109
Category 3: The Nature of Language Learning .....	112
Category 4: Learning and Communication Strategies .....	112
Items Not Designated as Important to Success in Language Learning .....	115
Items Designated as Important to Success in Language Learning .....	118
Items Designated Important Compared with Items Not Designated Important .....	121
APPENDIX H .....	123
DETAILED ANALYSIS OF STUDENT RESPONSES TO INDIVIDUAL ITEMS .....	124
It is Easier for Children than Adults to Learn English .....	124
Some People are Born with a Special Aptitude for Language Learning .....	127
It is Necessary to Learn about English-Speaking Countries to Learn English .....	130
You Shouldn't Say Anything in English until you can Say it Correctly .....	133
It is Important to Repeat and Practice a Lot .....	136
If Students Make Mistakes initially it will be difficult to correct them Later On .....	139
It is Easier to Speak than Understand English .....	142
Learning English is Different from Other Academic Subjects .....	145
Learning English is Mostly a Matter of Translating from your Native Language .....	148
It is Easier to Read and Write English than to Speak and Understand it .....	151
People who are good at Math and Science are not Good at Foreign Languages .....	154
Everyone can Learn to Speak English .....	157

## LIST OF TABLES

Table 1: Strengths and weaknesses of the latitudinal study .....	2
Table 2: Strengths and weaknesses of the longitudinal study .....	2
Table 3: Terms and abbreviations related to Pearson's correlation coefficient .....	19
Table 4: The instructors' collapsed response to each BALLI item .....	21
Table 5: Categorization of the twelve BALLI items studied regarding teachers' actual belief, belief portrayed by preferred method, and belief portrayed by the teachers in their particular English program. ....	22
Table 6: Coincidence between student and instructors beliefs for the two studies for the twelve BALLI items in which the instructors' beliefs reached a consensus.....	24
Table 7: The coincidence between student beliefs and the beliefs teachers believe themselves to be instilling on their students at the Paradise English Program.....	25
Table 8: The association between the amount of time students spent in the program and the coincidence between their beliefs and the actual beliefs of their instructors compared with the association with the instructors' portrayed beliefs.....	26
Table 9: The change in the coincidence between student beliefs and the actual beliefs of their instructors compared with the change in coincidence between student beliefs and their instructors' portrayed beliefs.....	26
Table 10: Student and teacher beliefs for each item in category: .....	27
Table 11: Data for latitudinal study (percentages rounded to whole numbers) .....	27
Table 12: Association between time in program and coincidence between student and teacher beliefs.....	28
Table 13: Students' responses to initial and final survey and their level of agreement with their instructors' actual belief. ....	28
Table 14: Students' responses to initial and final survey and their level of agreement with their instructors' portrayed belief .....	28
Table 15: Change in students' beliefs towards the beliefs of their instructors.....	28
Table 16: Student and teacher beliefs for each item in category: .....	29
Table 17: Data for latitudinal study (percentages rounded to whole numbers) .....	29
Table 18: Association between time in program and coincidence between student and teacher beliefs.....	30

Table 19: Students' responses to initial and final survey and their level of agreement with their instructors' actual belief.....	30
Table 20: Students' responses to initial and final survey and their level of agreement with their instructors' portrayed belief.....	30
Table 21: Change in students' beliefs towards the beliefs of their instructors.....	30
Table 22: Student and teacher beliefs for each item in category:.....	31
Table 23: Data for latitudinal study (percentages rounded to whole numbers).....	31
Table 18: Association between time in program and coincidence between student and teacher beliefs.....	32
Table 25: Students' responses to initial and final survey and their level of agreement with their instructors' actual belief.....	32
Table 26: Students' responses to initial and final survey and their level of agreement with their instructors' portrayed belief.....	32
Table 27: Change in students' beliefs towards the beliefs of their instructors.....	32
Table 28: Data for latitudinal study (percentages rounded to whole numbers).....	33
Table 29: Association between time spent in program and coincidence between student and teacher beliefs.....	33
Table 30: Students' responses to initial and final survey and their level of agreement with their instructors' actual belief.....	34
Table 31: Students' responses to initial and final survey and their level of agreement with their instructors' portrayed belief.....	34
Table 32: Change in students' beliefs towards the beliefs of their instructors.....	34
Table 33: Data for latitudinal study (percentages rounded to whole numbers).....	34
Table 34: Association between time spent in program and coincidence between student and teacher beliefs.....	35
Table 35: Students' responses to initial and final survey and their level of agreement with their instructors' actual belief.....	35
Table 36: Students' responses to initial and final survey and their level of agreement with their instructors' portrayed belief.....	35
Table 37: Change in students' beliefs towards the beliefs of their instructors.....	35
Table 38: Data for latitudinal study (percentages rounded to whole numbers).....	36
Table 39: Association between time spent in program and coincidence between student and teacher beliefs.....	36

Table 40: Students' responses to initial and final survey and their level of agreement with their instructors' actual belief .....	37
Table 41: Students' responses to initial and final survey and their level of agreement with their instructors' portrayed belief .....	37
Table 42: Change in students' beliefs towards the beliefs of their instructors.....	37
Table 43: Teachers responses to each BALLI item, excluding items 4 and 11 .....	62
Table 44: Beliefs portrayed by preferred teaching method.....	64
Table 45: Beliefs portrayed by teaching method at Paradise English.....	65
Table 46: Teachers' beliefs about language learning, the beliefs portrayed by their preferred teaching method, and the belief they perceive themselves to be portraying in the specific program .....	66
Table 47: Actual results for student beliefs for the three studies .....	70
Table 48: Expected results for student beliefs for the three studies.....	70
Table 49: Responses to individual BALLI items for the three studies combined.....	71
Table 50: Response to BALLI item 1: It is easier for children than adults to learn a second language.....	71
Table 51: Response to BALLI item 2: Some people are born with a special ability which helps them learn a foreign language .....	71
Table 52: Response to BALLI item 23: People who are good at math and science are not good at learning foreign languages.....	71
Table 53: Response to BALLI item 25: Everyone can learn to speak English.....	72
Table 54: Response to BALLI item 18: It is easier to speak than understand English.....	72
Table 55: Response to BALLI item 22: It is easier to read and write English than to speak and understand it.....	72
Table 56: Response to BALLI item 6: It's necessary to know about the culture of an English speaking country in order to speak English .....	72
Table 57: Response to BALLI Item 19: Learning English is different from learning other school subjects .....	72
Table 58: Response to BALLI item 20: Learning English is a matter of translating from my native language .....	73
Table 59: Response to BALLI item 7: You shouldn't say anything in English until you can say it correctly.....	73
Table 60: Response to BALLI item 13: It's important to repeat and practice a lot.....	73

Table 61: Response to BALLI item 14: If you are allowed to make mistakes in the beginning it will be hard to get rid of them later on .....	73
Table 62: Student and instructor responses to items in this category .....	82
Table 63: Data for latitudinal study (percentages rounded to whole numbers) .....	82
Table 64: Data from the latitudinal study used for significance testing, collapsing the week categories into halves. Percentages are rounded to nearest whole number.....	83
Table 65: Data collected from each of the three surveys for the longitudinal study.....	84
Table 66: Actual change in student responses from the initial to the final survey: .....	84
Table 67: Student and instructor responses to items in this category: .....	85
Table 68: Data for latitudinal study .....	85
Table 69: Data from the latitudinal study used for significance testing, collapsing the week categories into halves. Percentages are rounded to nearest whole number.....	86
Table 70: Data collected from each of the three surveys for the longitudinal study.....	87
Table 71: Actual change in student responses from the initial to the final survey.....	87
Table 72: Student and instructor responses to items in this category .....	88
Table 73: Data for latitudinal study (percentages rounded to whole numbers) .....	88
Table 74: Data from the latitudinal study used for significance testing, collapsing the week categories into halves. Percentages are rounded to nearest whole number.....	89
Table 75: Data collected from each of the three surveys for the longitudinal study.....	90
Table 76: Actual change in student responses from the initial to the final survey: .....	90
Table 77: Student and instructor responses to items in this category .....	91
Table 78: Data for latitudinal study .....	91
Table 79: Data from the latitudinal study used for significance testing, collapsing the week categories into halves. Percentages are rounded to nearest whole number.....	92
Table 80: Data collected from each of the three surveys for the longitudinal study.....	93
Table 81: Actual change in student responses from the initial to the final survey: .....	93
Table 82: Data for latitudinal study .....	94
Table 83: Data from the latitudinal study used for significance testing, collapsing the week categories into halves.....	95
Table 84: Data collected from each of the three surveys for the longitudinal study.....	96
Table 85: Actual change in student responses from the initial to the final survey: .....	96
Table 86: Data for latitudinal study .....	97
Table 87: Data from the latitudinal study used for significance testing, collapsing the week categories into halves. Percentages are rounded to nearest whole number.....	98

Table 88: Data collected from each of the three surveys for the longitudinal study.....	99
Table 89: Actual change in student responses from the initial to the final survey.....	99
Table 90: Data for latitudinal study .....	100
Table 91: Data from the latitudinal study used for significance testing, collapsing the week categories into halves. Percentages are rounded to nearest whole number.....	101
Table 92: Data collected from each of the three surveys for the longitudinal study.....	102
Table 93: Actual change in student responses from the initial to the final survey: .....	102
Table 94: Association between time spent in program and coincidence between student and teacher beliefs for items designated by teachers as important to success in language learning and items not designated as important.....	103
Table 95: Students' responses to initial and final survey and their level of agreement with their instructors' belief for items not designated as important.....	104
Table 96: Students' responses to initial and final survey and their level of agreement with their instructors' belief for items designated as important.....	104
Table 97: Change in students' beliefs towards the beliefs of their instructors.....	104
Table 98: Comparing the significance of the difference between the two groups .....	104
Table 99: Student and instructor responses to items in this category .....	106
Table 100: Data for latitudinal study .....	106
Table 101: Data from the latitudinal study used for significance testing, collapsing the week categories into halves. Percentages are rounded to nearest whole number.....	107
Table 103: Students responses in the initial and final survey and their level of agreement with the teachers believed teaching style .....	108
Table 104: Student and instructor responses to items in this category .....	109
Table 105: Data for latitudinal study .....	109
Table 106: Data from the latitudinal study used for significance testing, collapsing the week categories into halves. Percentages are rounded to nearest whole number.....	110
Table 107: Data collected from each of the three surveys for the longitudinal study.....	111

Figure 51: The percent of students in the latitudinal study who answered this item within collapsed categories A, D, and N, charted by the number of weeks they have been in the program.....	131

Figure 52: The cumulative percentage of the students in the latitudinal study who agreed minus the cumulative percentage who students who disagreed with this item charted by the number of weeks spent in the program. ....	131
Figure 53: the percent of students in the latitudinal study who answered this item within collapsed categories A, D, N charted by the collapsed categories of weeks spent in the program. ....	132
Figure 54: The percent of students in the latitudinal study who answered this item within collapsed categories A, D, and N, charted by the number of weeks they have been in the program. ....	134
Figure 55: The cumulative percentage of the students in the latitudinal study who agreed minus the cumulative percentage who students who disagreed with this item charted by the number of weeks spent in the program. ....	134
Figure 56: the percent of students in the latitudinal study who answered this item within collapsed categories A, D, N charted by the collapsed categories of weeks spent in the program. ....	135
Figure 57: The percent of students in the latitudinal study who answered this item within collapsed categories A, D, and N, charted by the number of weeks they have been in the program. ....	137
Figure 58: The cumulative percentage of the students in the latitudinal study who agreed minus the cumulative percentage who students who disagreed with this item charted by the number of weeks spent in the program. ....	137
Figure 59: the percent of students in the latitudinal study who answered this item within collapsed categories A, D, N charted by the collapsed categories of weeks spent in the program. ....	138
Figure 60: The percent of students in the latitudinal study who answered this item within collapsed categories A, D, and N, charted by the number of weeks they have been in the program. ....	140
Figure 61: The cumulative percentage of the students in the latitudinal study who agreed minus the cumulative percentage who students who disagreed with this item charted by the number of weeks spent in the program. ....	140
Figure 62: the percent of students in the latitudinal study who answered this item within collapsed categories A, D, N charted by the collapsed categories of weeks spent in the program. ....	141

Figure 63: The percent of students in the latitudinal study who answered this item within collapsed categories A, D, and N, charted by the number of weeks they have been in the program.....	143
Figure 64: The cumulative percentage of the students in the latitudinal study who agreed minus the cumulative percentage who students who disagreed with this item charted by the number of weeks spent in the program. ....	143
Figure 65: the percent of students in the latitudinal study who answered this item within collapsed categories A, D, N charted by the collapsed categories of weeks spent in the program.....	144
Figure 66: The percent of students in the latitudinal study who answered this item within collapsed categories A, D, and N, charted by the number of weeks they have been in the program.....	146
Figure 67: The cumulative percentage of the students in the latitudinal study who agreed minus the cumulative percentage who students who disagreed with this item charted by the number of weeks spent in the program. ....	146
Figure 68: the percent of students in the latitudinal study who answered this item within collapsed categories A, D, N charted by the collapsed categories of weeks spent in the program.....	147
Figure 69: The percent of students in the latitudinal study who answered this item within collapsed categories A, D, and N, charted by the number of weeks they have been in the program.....	149
Figure 70: The cumulative percentage of the students in the latitudinal study who agreed minus the cumulative percentage who students who disagreed with this item charted by the number of weeks spent in the program. ....	149
Figure 71: the percent of students in the latitudinal study who answered this item within collapsed categories A, D, N charted by the collapsed categories of weeks spent in the program.....	150
Figure 72: The percent of students in the latitudinal study who answered this item within collapsed categories A, D, and N, charted by the number of weeks they have been in the program.....	152
Figure 73: The cumulative percentage of the students in the latitudinal study who agreed minus the cumulative percentage who students who disagreed with this item charted by the number of weeks spent in the program. ....	152

Figure 74: the percent of students in the latitudinal study who answered this item within collapsed categories A, D, N charted by the collapsed categories of weeks spent in the program.....	153
Figure 75: The percent of students in the latitudinal study who answered this item within collapsed categories A, D, and N, charted by the number of weeks they have been in the program.....	155
Figure 76: The cumulative percentage of the students in the latitudinal study who agreed minus the cumulative percentage who students who disagreed with this item charted by the number of weeks spent in the program.....	155
Figure 77: the percent of students in the latitudinal study who answered this item within collapsed categories A, D, N charted by the collapsed categories of weeks spent in the program.....	156
Figure 78: The percent of students in the latitudinal study who answered this item within collapsed categories A, D, and N, charted by the number of weeks they have been in the program.....	158
Figure 79: The cumulative percentage of the students in the latitudinal study who agreed minus the cumulative percentage who students who disagreed with this item charted by the number of weeks spent in the program.....	158
Figure 80: the percent of students in the latitudinal study who answered this item within collapsed categories A, D, N charted by the collapsed categories of weeks spent in the program.....	159
