## ACKNOWLEDGEMENTS

I would like to express my appreciation to all my teachers in the TESOL Department at Payap University for guiding me to the field of TESOL and helping me in my study. I would particularly like to express my heartfelt thanks and regards to my main thesis supervisor Dr. Jonathan Leather for his constant advice, guidance, support and academic excellence in assistance with the writing of this thesis. Without his help, my study would not be completed. I would also like to show my respects and appreciation to Dr. Pearl Wattanakul, Ajarn David Richards and Ajarn Philip Keay for their support and guidance and all of their invaluable suggestions and references.

I especially appreciate my dear uncle and aunty for giving me this opportunity to study at Payap University. I would like to express my heartfelt thanks to my colleagues for their cooperation in coding the data and the students who took part in the process of data collection of this thesis work.

Last but not least, I give my thanks to my family and friends, for their love, support, and encouragement, especially my friends, who generously spared their time to read this thesis and give useful advice.
