Myanmar

PAYAP UNIVERSITY

## ACKNOWLEDGMENTS

From the bottom of my heart, my deep gratitude is due first to Rev. Daniel Kalnin, Director of Frontier Labourers for Christ (FLC) mission, and Rev. Hpung Raw Hpung, Moderator of the Rawang Baptist Christian Convention, for introducing me to this linguistics program. I am very grateful, though words fail to express my deep gratitude, to FLC mission for taking full responsibility for me for both studying at Payap University and staying in Thailand.

My deep gratitude goes also to my thesis advisor Dr. Thomas Tehan for his outstanding guidance, invaluable advice, and encouragement. I am very thankful also to A. Peter Constable and A. William Hanna, my thesis committee members, for their advice and also for offering many helps.

I am very indebted to Mrs. Beverley Kalnin not only for proofreading this paper but also for helping me with my English.

For printing the earlier drafts of this paper, my appreciation is for the Payap University Linguistics Department. My appreciation goes also to Mr. Pung Sinwal and Mrs. Chang Wadamkhong, my language helpers, for providing me with invaluable data. I am indebted to Mr. Pungsar Mayit for his courtesy of the drawing of a Rawang couple. The staff of FLC mission and many other people also deserve my appreciation for their various helps.

Without these people's help, this paper might not have been written and submitted.
