ACKNOWLEDGEMENTS

I am very grateful to many people who have assisted me through this study. My study might not have been accomplished without their help.

My appreciation is first expressed to Dr. Pearl Wattanakul, my project supervisor, who has worked closely with me throughout my studies. I wish to express my sincere gratitude to her for her valuable advice, insightful comments and patience.

My study would not have been possible without advice from all of my committee members. I wish to express my special thanks to Dr. Imelda Flores, who gave suggestions, and a great deal of support at the final stage of my study. My special thanks also goes to Aj. Wanda Jennings, who gave her time to proofread and comment on my paper.

I am deeply indebted to Aj. Peggy Imai, for her continual encouragement, and assistance during my study.

I wish to acknowledge and formally thank Amity Foundation and United Board for Christian Higher Education in Asia for their scholarship support from 1997 until I completed my master's studies.

Moreover, I would like to express my appreciation to all students who participated in my study and their cooperation.

Finally I wish to express my deepest gratitude and utmost respect to my parents who have supported me morally throughout my studies, and I owe a large debt of thanks to my dear daughter and my dear husband for their love and understanding.
