## ACKNOWLEDGEMENTS

This thesis could not be completed without the help of my supervising advisor, Associated Professor Dr. Varunee Boon-Long who not only served as supervising advisor but also encouraged me throughout this research. I would like to express my appreciation to Dr. Graeme Ritchie and Dr. Lamar Robert, members of my thesis committee, for their outstanding guidance and advice for this research.

Appreciation is also extended to Dr. Pearl Wattanakul for her assistance and understanding throughout the TEFL program. I also would like to thank Aj. Martha Young and Aj. John Anger, the instructors at Payap University, for their valuable advice. My thanks also go to Aj. Kanjana Sommit, who assisted me in evaluating the lesson plans. Also I would like to express my thanks to my friends in TEFL, especially, Yuphadee, they always cheer me up.

Moreover, I also would like to thank all 16 volunteer Architecture students at CMU who participated in learning very well. Appreciation is also extended to the instructors at The Faculty of Architecture, CMU who guided me in designing the course. I thank them all.

Special thanks to Miss Wonwimon Phonsantigul, who always inspired and encouraged me to do this research, she made me believe that everything is possible if I try my best.

Last but not least, I wish to express my deepest gratitude and utmost respect to my mother and my grandmother who always inspired and supported me financially throughout this research. They have played a major role in my success.
