## ACKNOWLEDGMENTS

I would like to thank all teachers at the Linguistics Department of Payap University for providing a decent education. I am particularly grateful to Ajarn Douglas Inglis for imparting a knowledge of Cognitive Grammar, and to Ajarn Arthur Cooper, a speaker of the Lahu Shi language, and Dr. Brian Migliazza for their help and advice to complete this thesis. I also would like to express my gratitude to Dr. Scott DeLancey who read my thesis and gave helpful comments. I would like to thank two Thai professors who read and gave helpful comments. They are Dr. Kingkarn Thepkanjana and Dr. Saranya Savetamalya.

I am indebted to my informants, Ehrsehnx Nazkhiri and Edawx kehor Nazkhiri, without their patient assistance this thesis would have been impossible to complete.

I would like to thank my friends at Payap University for providing a friendly environment, particularly Daniel Arisawa and his wife Tamami Arisawa without whose friendship and assistance this project would have been far less enjoyable.
